

Hell's Portals Hidden in Plain Sight

An IFA Special Report

With funding and partnerships with some of the most radical groups, a handpicked army of extremist District Attorneys and prosecutors are reshaping America's justice system. This evil plan ushering in evil like a portal from hell, and it is happening in plain sight across our nation. **Learn about the master plan, the consequences, the empowerment, and how we overcome it.**

Prosecutors Orchestrating Chaos

Hell's strategic planning team has come up with a genius plot to destroy America by placing a growing army of radical prosecutors in key locations around this nation. These portals of hell's agenda have more power than any local occult activity through their positions of authority. They are using their power to replace God's design for government with an advocacy of chaos.

Hidden in plain sight, at last count 75 radically "progressive" prosecutors, with campaigns funded by the Hungarian national George Soros, serve in key cities and communities. The results after just a few years are clear and measurable: increased crime and murder. Scripture clearly describes the role of government to protect the innocent (Romans 13). Yet the "soft on crime" policies of these hand-picked radical prosecutors primarily protect the guilty.

Not only are they soft on crime, they are also creating a climate of lawlessness. Shortly after the overturn of Roe v. Wade, a large group of these radical prosecutors issued a statement declaring that they will defiantly refuse to uphold their state's new laws to protect life and will instead follow their own personal radical ideologies on abortion. They state: "...we decline to use our offices' resources to criminalize reproductive health decisions and commit to exercise our well-settled discretion and refrain from prosecuting those who seek, provide, or support abortions." This statement is signed by nearly 100 elected prosecutors, under the banner of Fair and Just Prosecution, which is funded by Tides Center, Ford Foundation, and the Chan Zuckerberg Initiative, among other progressive funders. The laws these rogue prosecutors are blatantly disregarding were created completely constitutionally by state legislators the voters elected. ([Click here to see the names of the nearly 100 signers of this defiant declaration.](#))

Recently, voters in San Francisco **recalled** radical District Attorney **Chesa Boudin**. Citizens even in liberal San Francisco decided that sowing a progressive approach to law and order is not worth the rapidly rising crime that those policies reap. But this sowing and reaping is by design. Weakening a city. Disintegrating the culture. Imploding government into chaos. This is the purposeful work of George Soros as he throws his fortune into races across America to elect radically progressive district attorneys who systematically allow criminals to go free, protect illegal activity and activists, and spend time prosecuting their political and ideological enemies. Boudin is one extremist DA down--many more to recall. But as we speak, more radical DAs and prosecutors are being pushed through on ballots across the country, thanks to huge Soros-infused campaign coffers. These local races usually involve low budgets. Other candidates cannot compete when Soros gives his picks 5 or 10 times what is usually raised.

In the past decade, Soros spent **\$40 million** to fund the elections of prosecutors in over 70 districts. Prosecutors elected with the help of Soros money cover districts in half of the nation's 50 most populous cities. This means one in five people live under the jurisdiction of a Soros-promoted prosecutor. This small, strategic group of leftist prosecutors is increasing crime and disintegrating the rule of law for the entire nation. This is purposefully planned chaos.

Called "justice reform" candidates, their platform is intended to fashion a philosophy of law and order based on equity, reform, and "justice" in the criminal justice system. Think CRT applied to crime. These prosecutors (who barely prosecute), paired with radical lawmakers, have fundamentally changed a large part of the criminal justice system to remove bail, lighten sentences, and pick and choose which laws they will uphold, all while creating expensive massive reform activist programs attributing crime to race, disadvantage, and bigotry. There is big money to be made in pushing this narrative. Junkets, conferences, symposiums, grants, retraining, and even lavish "retreats" reinforce this ideology, and those who provide them are paid handsomely through your taxpayer dollars.

This systematic approach is more than just ruinous to our cities, it is ushering in demonic-fueled activity that is running rampant. Removing the biblical Judeo-Christian-based approach to right and wrong, law and order, accountability and personal responsibility, crime and punishment pulls away from the founding principles based on God's Word. Instead of recognizing crime as a result of a fallen nature and sinful man, this radical philosophy shifts the blame and responsibility to outside forces--society, patriarchy, and more.

Behind the Evil Plan for Chaos

This is "counterfeit justice" not biblical justice. This counterfeit is as old as Eden. Instead of dealing with the sinfulness of man that needs righting by God, Satan twists the responsibility of man and his need for God, pushing the blame on culture, laws, and outside influences, forcing society to change instead of the offender who needs repentance and a savior. This approach removes the fingerprints of God on our justice system, removes God from the personal accountability equation, and creates a reality where man defines what is good and just--not God.

A Progressive Worldview is an Anti-Biblical Worldview.

As we are approaching an election season, Christians – and especially intercessors – need to recognize the progressive plan to turn the prosecutor's office into portals of hell's agenda. Soros-funded candidates share a progressive mindset. In comparing a progressive mindset to a biblical mindset, here are differences you will see.

The progressive worldview believes in the innate goodness of mankind.

A biblical worldview recognizes the sinfulness of all men, seeing mankind as broken and needing accountability (and salvation).

The progressive worldview may attribute a criminal's behavior to outside forces in their environment. They may cite institutional injustice, racism or bigotry, and they may believe that remorse should qualify criminals for leniency.

A biblical worldview understands that humans are personally accountable for their choices and that there are consequences for man's behavior.

A progressive worldview looks to external programs, policies, grants, and structures to provide the solution for the criminal's rehabilitation.

A biblical worldview acknowledges that restitution and rehabilitation happen within a person. A change in circumstance alone will not bring a difference in criminal proclivity.

A progressive worldview believes that man has the answers.

A biblical worldview acknowledges that God has the answers.

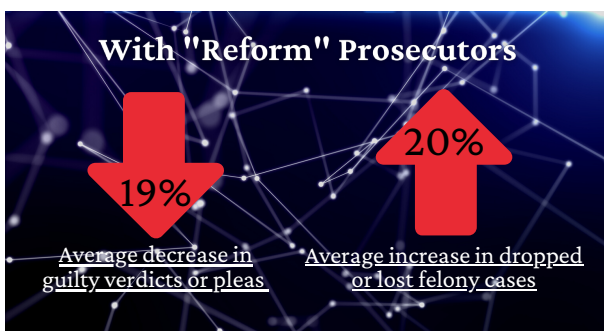

Dear intercessor, we are witnessing that an anti-biblical worldview DOES NOT work. If you believe in the inherent goodness of man – instead of the broken nature of man – the result is chaos. This worldview brings out the worst in people and the worst in society. The enforcement of the rule of law in accordance with Romans 13 is based on truth and brings order.

If this sounds convoluted, it is really more simple than it seems. Misdirect us away from God and society crumbles. Simple as that. Soros's genius in staking great fortune in these strategic races is increasing violence, crime, and chaos across the nation.

What are the results of a Progressive Worldview and these Progressive Prosecutors?

When these prosecutors are "soft on crime" the effects are clear. Recently IFA's Dave Kubal talked with a few law enforcement officers working in a district where one of these prosecutors is in power. **Here is what they shared are some of the results of this radical Soros prosecutor:**

- Law enforcement officers do not enforce the law because they know convicted criminals will likely receive light sentences or none at all.
- Law enforcement morale is incredibly low because officers see few results from their efforts.
- Criminals are MUCH more likely to go "hands on," during an encounter with law enforcement. That means suspects are willing to get into a physical altercation with police because the prosecutor will most likely support the suspect over the police officers.
- Law enforcement agencies can't recruit enough officers to fill vacancies, so they are constantly understaffed. Some of the factors are a general civic disrespect for law enforcement, fear of lawsuits and reprisal from suspects, and a lack of support from the administration.
- Criminals are more brazen now, because they know they can get away with crime.

"Our study shows for the first time, Soros's funding and installation of these district attorneys is fundamentally dismantling the criminal justice system as we know it."

-Law Enforcement Legal Defense Fund president Jason Johnson

Prayer Point: Pray for the law enforcement officers who are battling the progressive district attorneys and in some cases administration as well. Pray for protection as they try to uphold the laws while also battling from within their own justice departments.

Find out who is supporting your candidates

A little used method of finding out who is funding the candidates is to access the **Federal Election Commissions database**. Raising funds and spending has to be reported to the FEC as part of regular candidate filing. This filing provides a fairly accurate snapshot of the money behind the candidate. Check the database for a candidate to see who are the largest funders of their campaign, then look up those groups, organizations or names. [Click here to go to the FEC site to search.](#) Visit the Prayer and Action section of this report for more ideas and prayer points.

Behind the Evil Plan for Chaos

Pushing Back with Prayer and Action

For our struggle is not against flesh and blood, but against the rulers, against the authorities, against the powers of this dark world and against the spiritual forces of evil in the heavenly realms. (Eph 6:12)

Prayer Points to battle the ungodliness and breakdown of justice

- Pray about these progressive candidates and those who fund them, as they discuss their positions and plans.
- Pray that any designs for harmful actions or policies would be thwarted. ([Job 12:24](#))
- Pray for lack of agreement or alignment between members as they formulate their actions.
- Pray for dangerous or harmful alliances to crumble. ([Prv 16:12](#))
- Pray that any harmful results from these partnerships and alliances would be revealed, even though they operate in secret. ([Lk 8:17](#))
- Pray that the demonic influence on our nation through these prosecutors and their agendas would be thwarted.
- Pray for judges who will be hearing cases from these prosecutors. Pray that in their rulings they would adhere to the rule of law.
- Pray for open eyes for citizens and Christians to see the harm in this approach to justice. Pray that voters would look into the candidates to know more about their funding and their experience.

Take Action

- Get involved civically. It is critical for us to be engaged if we wish to change the system and stop the ungodly agenda.
- Vote in every election - even the smaller elections. There are no "insignificant" offices of government.
- Find out about your candidates by checking the donation reports and see who is funneling big money into their campaign. Consult the FEC website to search your active candidates for campaign contributors. [Go here.](#)
- If you have a progressive prosecutor, you are likely experiencing the pain of high crime. You can RECALL your district attorney! A high profile prosecutor in San Francisco was just successfully recalled. It CAN be done.
- Get involved in campaigning for those who are standing for biblical values - at every level. There are NO insignificant races.

Hope for more recalls?

After the successful recall of San Francisco's Boudin, other districts may recall their own radical prosecutors, like Los Angeles DA George Gascon. In Virginia, [Buta Biberaj](#) hired a registered sex offender to work in her office. Rising crime and sentences well below the state minimums put Biberaj in an increasingly vulnerable position. Citizens who have viewed Biberaj as part of the overall problem with

Loudoun County, Virginia politics and accountability (along with the infamous Loudoun County School Board), may push for a voter recall to oust her. According to the *Washington Free Beacon*, "If recall organizers gather almost 12,000 signatures—representing 10 percent of the 2019 electorate—a Loudoun County judge will decide whether Biberaj ought to be removed as commonwealth's attorney."

Even those in her own party are looking for another potential candidate to fill her shoes. But will that replacement candidate be cut from the same Soros cloth? Where else may we see more recalls? Will citizens take charge to hold these failing prosecutors accountable? We must pray they will. Soros, on the other hand, seems determined to continue with his plan to fund and elect more soft-on-crime prosecutors, and protect the position of those already in office.

He who justifies the wicked and he who condemns the righteous are both alike an abomination to the Lord. (Prv 17:15)
