America is turning around spiritually.

- Regular prayer and worship have returned to the White House with the establishment of the Faith Office. And at the Lincoln Memorial site the Nation was formally rededicated to God of the Christian faith May 17th 2026.
- President Trump has removed woke policies and teachings from our schools and universities, and made the fact that there are only two sexes the official policy of the U.S. government. He officially began the process of closing the Department of Education and returning education to the states.
- As a Christian and one who is Pro-life, he pardoned the pro-life Americans wrongly targeted by the Biden administration and in his first term he gave us justices that overturned Roe v Wade. He has also ended federal funding for chemical and surgical gender procedures for minors through Executive action.
- He has also ordered US strikes against ISIS leadership in Nigeria in order to protect Christian communities.

America is safer.

- President Trump has closed our borders to illegals and is deporting millions who entered our nation illegally. He has essentially stopped the flow of illegal drugs from coming across, including the abominable fentanyl. He dismantled Tren de Aragua, MS-13, and other transnational gang-related criminal networks, and has designated more than 10 major Latin American cartels as terrorist organizations.
- He and his team have delivered the largest one-year decline in homicides in U.S. history, while overseeing a 25% decrease in the number of on-duty law enforcement officer deaths. He has captured a record number of criminals on the FBI's Most Wanted list within one year – outpacing the number captured under Biden in four years.
- He barred COVID-19 vaccine mandates for our children in schools that receive federal funding, and is cleaning up America's poisonous foods.

America is more prosperous.

- According to the official [Investments – The White House](#) tracker, total U.S. and foreign investments listed on the site stand at \$11.2 trillion with additional commitments leading upwards to \$20 trillion. And President Trump as reestablished trade for Americans worldwide.
- He is exposing and ending fraud to the tune of billions of taxpayer dollars. Some estimates are as high as half a trillion a year.
- He has tamed inflation to 2.4%, down from its highest in a generation during Biden's presidency.
- He has begun allowing oil drilling and coal mining, and has ended Biden's foolish bans on fossil fuels.
- He has ended the waste of billions of dollars on unwise Green Energy subsidies. The American economy is roaring back and will continue to do so with the strategies he and Secretary of the Treasury Scott Bessent are implementing.
- Tariffs, which MSM has worked hard to keep people confused about, have created production returns and greatly increased investments in the U.S. For the first time in over 27 years, America produces more steel than Japan.
- Deregulation has meant taking on the cartels. US Oil production now exceeds Saudi Arabia and Russia combined, lowering costs soon to be realized by Americans.
- America added 162,000 jobs in August — triple economists' expectations. The private sector has now created over one million jobs under President Trump, whose reindustrialization agenda continues to drive manufacturing and factory construction job growth. America is in the middle of a historic investment boom, and the August jobs report is the latest data point showing how Americans are benefitting from the Trump administration's pro-growth policies. The best is yet to come with even more job, wage, and economic growth in store for everyday Americans.

America is stronger Militarily.

- Trump and his administration have restored and exceeded necessary military recruitment and strengthened our military. They have removed DEI policies from the military and barred transgender individuals from enlisting in our armed forces. They've fired disloyal, woke, and unpatriotic military officials. Trump supports our troops...and our veterans.

- President Trump has revoked more than 100 security clearances of deep state actors responsible for weaponizing and politicizing intelligence, including: Joe Biden, Kamala Harris, Alvin Bragg, Jake Sullivan, Hillary Clinton, Leticia James, Liz Cheney, John Bolton, Adam Kinzinger, Anthony Blinken, James Clapper, and Fiona Hill.

Internationally America is stronger.

- Trump has ended 8 wars around the world and secured an agreement from NATO member nations to raise their defense spending from 2% to 5% of their GDP. (Most of them weren't even spending the required 2%, but were simply allowing the U.S. to foot the bill.)
- He has essentially taken back the Panama Canal, which had more or less fallen into the hands of China.
- He blew up Iran's bunkers that contained most of its nuclear capabilities.
- He has greatly crippled China and Russia's strengths and economies, and made America the world's respected leader again.
- He ended the evil regime in Venezuela, taking the unelected dictator from his bed... and the oil from Russia and China.
- He has freed the Venezuelan people from the Globalists intervention in their oppressive government in association with China and Cuba and has orchestrated the biggest oil deal in world history that secures majority U.S. control of more than 65 billion barrels of proven oil Reserves in Venezuela at no cost to the American taxpayer. This more than doubles American Oil Reserves, greatly increases our Oil Supply, and will substantially lower Gas Prices for all Americans, long into the future, while helping to continue to set Venezuela on a course toward Tremendous Success and Great Prosperity.
- He has built friendships with most Middle Eastern nations, creating alliances that most believed were completely impossible. The Trump Administration is restructuring the Middle-East which further destroys the Globalist's power, and nullifies the very real nuclear threat to the world which Iran was insisting upon being. He is not utilizing the strategies of the Globalists to instigate forever wars or to instigate any regime change, rather through Operation Economic Outcast the Trump administration is isolating Iran, which has been a proxy for the Globalists. By imposing sanctions on more than 60 targets worldwide and warning foreign governments and businesses that continue dealings with Tehran that such actions would cost them access to the U.S. financial system, President Trump's administration is achieving our goals without war. MORE: bit.ly/4caD2Bb Trump's

strategy in the Middle East is bringing new hope to all the nations there including normalizations of relations with Israel.

- President Trump is confronting Canada which is a key proxy for the Globalists, with Mark Carney as their puppet. Since this is another matter the Globalist controlled MSM seek to keep people confused about, August 24th, President Trump wrote on Truth Social: “Canada has been ripping off the United States of America for years. Their ridiculously high tariffs on our Farmers and farm products has made life impossible for these great American Patriots, and has long created a 60 Billion Dollar Deficit between our two Countries. Not sustainable, and NOT ANYMORE! On January First, 2027, Tariffs on all Cars, Trucks, both large and small, Automotive Parts, and Steel, will be increased to 50%. Build in the U.S. and there are ZERO TARIFFS. Canada will be treated like a State no longer! On Trade, and in other ways, also, they are among the worst Nations in the World to deal with. They feel entitled, and yet, WE DON’T NEED CANADA, THEY NEED US! They do 95% of their business with the U.S., with us, the exact opposite! Thank you for your attention to this matter! President DONALD J. TRUMP
- In the process of confronting Venezuela, Iran and Canada, President Trump is confronting China. The U.S. recognizes Canada could be used as a backdoor for Chinese overcapacity to flood the U.S. market, despite tariffs on Chinese imports. While Canada sees China as a part of the calculus for offsetting U.S pressure, analysts say Carney and the Globalists could easily bring long-term damage to Canadians, which President Trump is working to expose so inform and mobilize the Canadians.
- President Trump is taking control back from the Globalists who for 50 years have been working to de-industrialize America making the nation dependent on other nations, even to the point of risking our national security. The Globalists have been trying to destroy America because this nation is the biggest threat to their plans. The American Economic System is the one system that has ability to topple the Globalist Elite’s tyrannical system that has sought to utilize bio weapons, population control, climate control, financial control, poisoning of our food and water, and the instigation of forever wars.
